

HANDS OFF OUR HEALTHCARE

Ensuring Our Safety Net Victory Is NOT Stolen by NYP & Sinai Bosses

NYSNA nurses at safety net facilities worked incredibly hard to win new contracts with our hospitals that protect our health benefits, improve staffing enforcement with make-whole remedies, lock in our pension, and guarantee raises equal to our NYC peers. Now greedy hospital execs at other hospitals are jeopardizing our win by proposing dangerous cuts to the NYSNA Benefits.

Our safety net employers agreed to continue participation in the NYSNA Benefits without cuts- why are the richest hospitals demanding them?

NYP and Sinai bosses indicated they want major cuts to our NYSNA Benefits that will impact not only nurses at those hospitals and ours, but over 44,000 nurses and their family members at more than 50 hospitals around the state.

How Our Plan Works

We have a joint Union-Employer plan. Our safety net employers work with 50+ other employers that make up 50% of the trustees. NYSNA makes up the other 50%. NYP and Sinai are trying to use their size to force terrible cuts.

We can't let that happen. That is why we delayed our ratification votes to fight this. We need clarity that they will NOT try to force terrible cuts to our NYSNA Benefits. And our members at NYP and Sinai continue to be on strike to fight these devastating cuts too.

We simply cannot call a ratification vote until we are able to get more clarity and information on the health plan.

CALL THE MAJOR NYC TRUSTEES TODAY TO SAY NO TO DANGEROUS HEALTHCARE CUTS
