

Protecting Patient Care in the North Country

VIRTUAL TOWN HALL MEETING

NYSNA members from seven hospitals are coming together to protect patient care in the North Country!

As rural communities brace for the impact of cuts to healthcare funding, NYSNA members are holding a town hall to bring attention to increasingly limited access to care in the North Country.

Join us on Zoom to learn more about how North Country nurses and patients can push back against potential hospital cuts and fight for the quality healthcare all North Country patients deserve!
