

ORGANIZING IS AN ATTITUDE!

☐ **Organizing is first of all an attitude.**

It is the attitude that you and your co-workers together can do something to make things better.

It is the attitude that action is better than complaining.

It is the attitude that problems are just waiting for a solution.

☐ **Sticking with it.**

It is the refusal to be discouraged – at least not for long.

☐ **Democracy.**

It is the willingness to listen to others with respect, so that the plan you come up with reflects the good ideas of everyone.

☐ **Fighting for justice.**

If you have an organizing attitude, you feel it is necessary to respond to unfairness.

You are committed to building power with your co-workers, not just talking about it.

You believe in collective action and want to get better at putting others in motion.
