

Palliative Care: Enhancing Quality of Life and Support

LEARNING OUTCOME:

The participant will be able to identify the skills needed to incorporate palliative care into their practice.

OBJECTIVES:

Participants will be able to:

- Define palliative care and the nurse's role.
- Differentiate palliative care from hospice care.
- Explain why palliative care is integral to end-of-life care.
- Describe the domains of palliative care.
- Discuss the impact of effective communication on palliative care.
- Identify the interprofessional team needed in palliative care.
- Identify palliative care assessment tools that may be used in primary care settings.
- Discuss the legal aspects of nursing in palliative care.

FACULTY:

Korinn A. Chaffee, BSN, RN, OCN has over 15 years of experience working in the specialty of oncology and palliative care nursing. Ms. Chaffee teaches senior level nursing students and mentors new nurses in clinical practice. Ms. Chaffee is well-versed in navigating patients and staff through all stages of serious diagnosis, support and palliative care.

Note: The instructor for this program is contracted through Quality Training Solution Corporation (QTSC).
