ONLINE PROGRAM

School Nurse Standards of Practice and Certification Review

LEARNING OUTCOME:

The participant will be able to discuss the role of the school nurse and the legal implications.

OBJECTIVES:

Participants will be able to:
- Identify general physical needs of the school aged child.
- Identify general psychosocial needs of the school aged child.
- Identify the appropriate nursing assessments related to systems review of the school aged child.
- Discuss the school nurse's role in management of emergency care of the school aged child.
- Identify common communicable diseases of the school aged child.
- Discuss the role of the school nurse in health promotion and disease prevention.
- Discuss legal considerations related to the role of the school nurse.
- Discuss professional issues as they relate to the practice of school nursing.

FACULTY:

Nicole Plante, BSN, RN, NBCSN is a seasoned practitioner with over six years of experience working both in elementary and middle school in a large school district. Having interacted with hundreds of students, Ms. Plante has a great deal of experience providing care and service to this population. This involvement has increased her skill and nursing actions as focused on an individual student or family, the school community or group of students or their families where there is continuing professional responsibility and accountability for the outcomes of these actions.

Note: The instructor for this program is contracted through Quality Training Solution Corporation (QTSC).
