

## Introduction to Telehealth for Nurses

### LEARNING OUTCOME:

Identify ways that Telehealth technology can facilitate the management of healthcare services.

### OBJECTIVES:

Upon completion of this workshop, participants will be able to:

- Identify Telehealth applications in current healthcare settings.
- Discuss the implications for Telehealth and its relationship to HIPAA.
- Define the role of nursing in Telehealth.
- Discuss barriers to Telehealth and overcoming challenges.

### FACULTY:

**Korinn A. Chaffee, BSN, RN, OCN** is a registered nurse with over 15 years' experience in inpatient and outpatient Oncology. She is certified in Oncology, Chemotherapy and Biotherapy and serves as a clinical instructor for Utica College. She taught multiple classes to staff and others related to oncology and other topics surrounding evidence-based practice and telehealth. Korinn has extensive experience in developing and implementing the use of telehealth in the facility where she is employed. As a result, providers, nursing staff and other members of the interdisciplinary team are able to manage patient scheduling effectively and meet patient healthcare needs. She developed the protocol for telehealth use and instructs new staff about the benefits of telehealth.

*Note: The instructor for this program is contracted through Quality Training Solution Corporation (QTSC).*
