

Case Management Nursing Standards of Practice and Certification Review

LEARNING OUTCOME:

Participants will be able to apply current standards of care in case management nursing to selected situations, in accordance with the Commission for Case Manager Certification (CCMC), standards of care for case management nursing.

OBJECTIVES:

Participants will be able to:

- Discuss the Fundamentals of Case Management.
- Discuss the skills included in Case Management.
- Identify the components of Resource Management.
- Recognize community and provider support services as they relate to case management needs.
- Apply the principles of Quality Management and Performance Improvement to selected situations in case management.
- Discuss the Case Management scope of practice and its implications to case management issues.
- Discuss the Legal and Ethical components of Case Management.
- Recognize the implications of education, learning, and health promotion as it applies to case management.
- Discuss the importance of disease management and wellness promotion with cultural implications in case management.

FACULTY:

Ellen Rearick, PhD, RN, CCM has been an RN for over 36 years. She is currently licensed in three states and has practiced in a variety of community settings. Dr. Rearick is a full-time faculty member at Framingham State University.

Note: The instructor for this program is contracted through Quality Training Solution Corporation (QTSC).
