

Pain Management Nursing Standards of Practice and Certification Review

LEARNING OUTCOME:

Participants in this course will be able to identify current standards of practice related to Pain Management and apply this to selected situations occurring in pain management. Participants will also identify they are more prepared to take the Pain Management certification examination.

OBJECTIVES:

Participants will be able to:

- Explore the concept and science of pain.
- Discuss the importance of nursing skills related to the assessment and reassessment of pain.
- Restate current pain management interventions and treatments.
- Explain pain management education to and collaboration strategies for patients.

FACULTY:

Debra Dermady-Ray, RN-BC, ANP-BC has been practicing as a Board-Certified Adult Nurse Practitioner (ANP-BC) in Pain Management since 2002. Ms. Dermady-Ray is also certified in Opioid Management through ASSIP (American Society of Interventional Pain Physicians) and has presented for the Nurse Practitioner Association of New York State - local chapter, on pain management.

Note: The instructor for this program is contracted through Quality Training Solution Corporation (QTSC).
