

## Medication Administration Safety XR

### LEARNING OUTCOME:

Participants of this program will be able to demonstrate knowledge of best practices for safe medication preparation and delivery to reduce the likelihood of committing medication administration errors.

### OBJECTIVES:

Participants will be able to:

- Define medication error and identify the impact of medication errors on patient morbidity and mortality.
- Discuss common types of medication errors and their causes.
- Identify preventative strategies to reduce error rates.
- Apply the "Ten Rights" of medication administration in minimizing risk, improving patient safety and preventing harm.
- Implement best practices for safe medication preparation and delivery.
- Identify the importance of reporting medication errors.

### FACULTY:

**Karen Broomes-James, DNP, RN, NPD-BC, CCRN-K, SCRNP, PCCN** is a registered nurse of over 15 years and a certified nurse educator with expertise in surgical critical care, surgical progressive care, and stroke care. Dr. Broomes-James is passionate about delivering high quality evidence-based patient care and advancing nursing education through innovative programs and professional development initiatives that empower nurses and improve patient outcomes.

**Rose Sona Bright Jibu, DNP, MSN, APRN, CPNP-PC, RNC-NIC** is a clinical nurse, Nurse leader, educator, and Nurse Practitioner with 25 years of experience in the nursing field. Dr. Bright Jibu presents in conferences and classrooms, leads evidence-based practice initiatives, and develops adult learning programs for nurses and interns, emphasizing safe medication administration, accurate documentation, and patient safety. She is passionate about scaffolded, engaging educational models for adult learners.
