

Fundamentals of Telemetry Monitoring

LEARNING OUTCOME:

The participant will be able to correctly identify three selected cardiac rhythms.

OBJECTIVES:

Participants will be able to:

- Discuss the anatomy and physiology pertaining to cardiac rhythms.
- Identify sinus cardiac rhythm.
- Identify atrial cardiac rhythms.
- Identify junctional cardiac rhythms.
- Identify ventricular cardiac rhythms.
- Identify Atrial-Ventricular Block cardiac rhythms.
- Discuss paced cardiac rhythms.
- Discuss various methods used to interpret 12 Lead EKGs.
- Identify life threatening cardiac rhythms.
- Compare and contrast various cardiac rhythms.
- Discuss basic cardiac pharmacology.

FACULTY:

Danielle R. O'Connor, MS, RN, FNP, is a highly accomplished nurse educator and clinician with over two decades of progressive experience spanning acute care, rehabilitation, telemetry, and academic leadership. An experienced clinician Danielle O'Connor has extensive hands-on expertise in telemetry, rehabilitation, and medical-surgical nursing. She is known for her clinical precision, documentation excellence, and interprofessional collaboration.

With her unique blend of advanced education, diverse clinical background, and instructional excellence, Danielle O'Connor is a sought-after faculty expert for courses in telemetry, rehabilitation, and nursing documentation, bringing both depth of experience and an engaging, practice-based approach to nursing education.

Note: The instructor for this program is contracted through Quality Training Solution Corporation (QTSC).
