

# How Federal Healthcare Cuts Will Impact New Yorkers

## Access to Care:

### 1.2 million

**New Yorkers will lose their health insurance**

- Medicaid cuts and weakening of the Affordable Care Act (ACA) will cause 1.2 million New Yorkers to be newly uninsured.<sup>1</sup> Visit [Medicaid Matters](#) to see impacts by congressional district.<sup>2</sup>

**Health insurance premiums will rise for everyone**

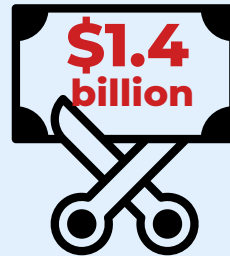

- If you buy insurance through the ACA exchange, premiums will increase by an average of 50%
- The AFL-CIO estimates that premiums for workers with job-based insurance could soar by nearly \$500 a year for each person covered and nearly \$2,000 for families.

## Extreme Funding Cuts:

### \$13.5 billion

**New York is projected to lose \$13.5 billion in federal healthcare funding.**

**Hospitals are projected to lose \$1.4 billion statewide from federal cuts.<sup>3</sup>**

- Hospitals will likely demand higher rates from private insurance to make up losses.
- Nearly 50 hospitals throughout the state receive 20% or more of their revenue from Medicaid. Public, safety net and rural hospitals will be especially hard hit by funding cuts.<sup>4</sup>

## Service Closures:

**Approximately 70 New York hospitals could be at risk of closure from federal Medicaid cuts.<sup>5</sup>**

- Safety nets could lose nearly \$2 billion because of cuts to the Disproportionate Share Hospital Funding cap.<sup>6</sup>

## Job Loss:

### 79,000

**healthcare workers could lose their jobs**

- The Fiscal Policy Institute estimates that nearly 79,000 healthcare workers could lose their jobs in New York, and hospitals could lose nearly 19,000 jobs.<sup>7</sup>
